

Excel based (csv) results key:

Column Label	Description
<b>CASE-NUMBER:</b>	Unique identifier assigned by NAA to sample and to be quoted if need retesting on that sample. (Can have multiple case numbers to an Animal, if more than 1 sample sent, but only ever 1 case number per sample).
<b>IDENT</b>	(NOTE: This is as on submission form which doesn't always marry up to official registration)
<b>DNA-TESTS-REQUESTED:</b>	As per submission
<b>RESULT:</b>	If Complete, this means the test is completed. Incomplete = pending or failed test.
<b>SIRE-CASE-Q</b>	The case number of single qualifying animal from nomination set. BLANK means no sire qualified/all excluded OR multiple qualifications = unresolved.
<b>SIRE-IDENT-Q</b>	The IDENT(see above) of single qualifying sire from nomination set. BLANK means no sire qualified/all excluded OR multiple qualifications = unresolved.
<b>DAM-CASE-Q</b>	The case number of single qualifying dam from nomination set. BLANK means no dam qualified/all excluded OR multiple qualifications =unresolved.
<b>DAM-IDENT-Q</b>	The IDENT(see above) of single qualifying dam from nomination set. BLANK means no dam qualified/all excluded OR multiple qualifications =unresolved.
<b>MATING</b>	Q designates a single qualification of both sire and dam. Blank means no Trio qualification
<b>SIRES-EXCLUDED</b>	Any sires (Idents listed) considered but rejected. NOTE: We often run sires in aggregate.
<b>DAMS-EXCLUDED</b>	Any dams (Idents listed) considered but rejected. NOTE: We often run dams in aggregate.
<b>BIRTHDATE</b>	Birth date of animal
<b>SEX</b>	Sex of animal
<b>ANIM-NAME</b>	Name of animal, optional
<b>MEMB-ID</b>	Member ID, optional
