**Next Matings:**

Matings for next year's calf drop can be added when entering calves, however if the cow/heifer was empty do not enter mating details only as the system will not accept it. To add mating details only please send direct to Registry via email.

**Dead Calves:**

Can be entered with tattoo 170000 (four zeros). For 'Calf Fate' select 'died'.

**Twins:**

Any twins or additional calves can be added by clicking the 'Add' button (found at the foot of the female inventory page).

## Warnings & Errors:

**Warnings are given in green.** They inform you of a possible mistake but usually suggest such things as dam inactive in herd at calving. Processing can continue but you should advise the society why a warning has been overridden *e.g. you want the dam reinstated to active so you can record the calf.*

**Fatal errors are given in red.** They must be corrected before a batch can be submitted. If you are unable to correct a fatal error and you want to submit your batch you may delete a record by clicking the **Delete** field and then click **Go**. This deletes the calf record not the female.

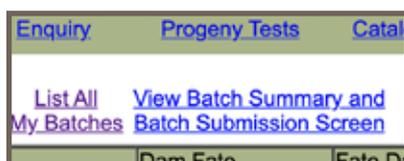

## Editing Batches and Records:

You can view a batch by clicking on the batch number. This produces a batch summary indicating validated entries, entries with warnings, entries with fatal errors and deleted records. You can edit a record by clicking on the **(record number)-Edit**. This displays the record page with each component and indicates which is/are in error. You can change any component and click **Go** at the bottom. The record will go through the validation process again. **You cannot edit a record after the batch has been submitted.**

## Submitting A Batch:

If you have warnings they will be accepted by the system when you submit the batch but you cannot submit a batch with fatal errors. Either correct them or delete the record.

To submit a batch to the Society you click the **View batch Summary and Batch Submission Screen** heading and then confirm by clicking the **Submit this batch to NZ Herefords** button. This will automatically send an e-mail with an attachment to Hereford Registry. These disposals will be processed electronically.

A screenshot of a batch summary page. At the top, there are links for 'List All My Batches' and 'View Records in this Batch'. The main content is a table with the following data:
