From 1 January 2020, ALL registered bulls (of any age, including calves) **sold for transfer** must have a minimum 50k SNP DNA profile, be correctly SNP sire-verified and tested for all known genetic defects for which there is a commercial test available.

From 1 Jan 2016, ALL females **sold for transfer** must be sire verified. (dispensation granted for females born before and including 2013) and tested for hypotrichosis, diluter, and idiopathic epilepsy, with results declared.

The Vendor is responsible for the completion and recording of the transfer of any animal.

Declaration of transfer not received by NZHA registry within 30 days of such transfer will have to be specially considered and if found necessary a fine for delay will be levied.

I hereby authorise the Transfer/Lease of Ownership of the above animal for recording in the database of the New Zealand Hereford Association.
